Brand Story

At our core, we are a Punjabi premium brand born from the earthy soul of traditional dhaba culture. What began as a tribute to the vibrant highways of Punjab has grown into a space where heritage meets modern hospitality. We carry forward the warmth of roadside chulhas, the aroma of slow-cooked sabzis, and the unmistakable Punjabi spirit of generosity. Here, every meal is crafted with the same love, boldness, and authenticity you'd find in a true pind da dhaba. But we elevate that tradition with a refined, contemporary dining experience—designed for today's guest who seeks both comfort and sophistication.From our handcrafted lassis to our signature grills and
breads, we celebrate Punjab's richness in every flavour and every plate.

Colour palette

Our colour palette is a reflection of Punjab itself—bold, rooted, and full of character. The deep Maroon (#860512) draws from the richness of slow-cooked gravies, clay tandoors, and the warmth of Punjabi hospitality. It represents passion, depth, and the timeless pride of a culture that cooks with heart.

Balanced against it, Forest Green (#02332d) echoes Punjab's fertile fields and the calm strength of its land—grounding the brand in authenticity, tradition, and natural abundance.

Complementing these strong foundations, Warm Sand (#ecd9b9) brings in the softness of wheat fields, earthen walls, and sun-washed dhabas along the highways. It adds warmth, balance, and a refined elegance that elevates the overall experience.

Together, these colours create a visual language that feels desi yet premium, rustic yet refined—honouring Punjabi roots while presenting them through a modern, contemporary lens.
